

Uncut Interview with Dyson Alum Andy Kim on Excel and SQL Queries and Building Analytical Intuition

Andy Kim

As a Data Analyst at Facebook, Andy Kim has honed his skills to build his analytical intuition. He describes exactly what that means for his work.

Andy Kim is a Data Analyst at Facebook

As an experienced Data Analyst at Facebook, Andy Kim describes his work as delving beyond the boundaries of data science and into software engineering and data engineering, actively contributing to data pipelines to power scalable dashboards and to codebases of consumer-facing products at the social media giant. Kim is a graduate of Cornell University with a Bachelor of Science degree in Applied Economics and Management.

Questions

"Is Excel a good starting point for data? What else can we use?"

"What do you mean by 'building analytical intuition,' and what goes into that?"
