

Office Hours

- **Instructor Office Hours**

- After class (T/Th @ 9:55), Professor Bracy is happy to answer questions about lecture material. This is not a good time to discuss individual questions about labs or assignments. Starting at 10:30, she hosts **bookable 1-on-1 office hours**. [🔗\(https://bracy.youcanbook.me/\)](https://bracy.youcanbook.me/)

- **TA Office hours**

- TAs offer 2-hour blocks throughout the week in reserved rooms.
- TA Office Hours are a mix of in-person and remote (Zoom) time slots. They are held less often than consulting hours, but they are for any type of question you might have about the course. Like the instructor's office hours, these are generally held during normal working hours and do not overlap consulting hours (though occasionally a TA may offer a weekend office hour).
 - For the exact hours available, please see the calendar at the bottom of the page.

- **Consulting hours (Drop-in Help)**

- Consulting Hours are the predominant form of office hours in this course, as they are held every day except for Friday and Saturday. We only offer in-person consulting hours. If you need remote help on a one-off basis, please get in touch with the course staff so that we can try to accommodate for it.
- Consultants staff large contiguous blocks of help sessions held in Phillips 318 that will run approximately:
 - Sun: 12:30 – 9:30pm
 - M-Thur 4:30 – 9:30pm
- All consulting hours are managed on a first-come, first-served basis. To manage demand, we use **queueme.in** [🔗\(https://www.queueme.in/login\)](https://www.queueme.in/login).
 - When using queueme.in, *make sure* you are in CS 1110 queue. If this is your first time logging into the site, enroll yourself in CS 1110. In subsequent visits, it should redirect you to the course's queue automatically. This site works best when using Chrome or Firefox. If you are using another browser and experiencing a blank screen and refreshing does not help, try one of these browsers.
 - To get help, click "Join the Queue" for "Consulting Hours". It is important that you select the "Consulting Hours" slot, as some TAs may use queueme.in for their own office hours. When you click on this option, you should see a window with four sections: Categories,

Tags, Location, and Question (see below).

(CS 1110, Python) Consulting Hours
12:30 PM - 9:30 PM
Sunday, Apr 14
Zoom (please put Zoom meeting ID in location box of your question)

Question (140 characters left)
Enter your location...

Add My Question

- You should choose one **Category** and some **Tags** for your chosen Category. You *must* choose a Category, as you cannot skip ahead to Tags, Location, or Question without doing this first.
- Once you have chosen your Category and Tag, you will be prompted for a location, e.g. "front row", "middle of the room", etc.
